

Pay In Your Currency[®]

Choice. Clarity. Convenience

Each year millions of international travellers spend money on in hotels and restaurants abroad. As a result, those businesses have to accept more and more Visa[®] and MasterCard[®] transactions from cards issued outside of their country.

Our Pay In Your Currency solution is a secure, compliant processing solution that provides hotels with the ability to offer their international guests the choice to pay in the currency they understand best – their own.

With Pay In Your Currency, hotels can earn additional profit margin on each Pay In Your Currency transaction, while continuing to be paid in their local currency. In addition, we provide an online reporting tool enabling hotels to track and manage international transactions, respond to chargebacks and calculate the revenue a hotel generates from offering Pay In Your Currency.

Savvy hotels are looking for new ways to improve guest experience, reduce costs and generate additional revenue. Offering Pay In Your Currency at the point-of-sale allows hotels to accomplish these objectives.

How Pay In Your Currency Works

The POS terminal will prompt the eligible cardholder with the option to pay for their purchase in either their own currency (with exchange rate disclosed) or in the local currency

The terminal authorizes the transaction in the chosen currency

The final receipt indicates the guest's currency choice and matches the amount on the guest's credit card billing statement.

Guest Benefits

- ✓ **Improved transparency.** Guests see the exact amount of their purchase in their home currency at time-of payment and on their statement.
- ✓ **Informed purchases.** International travellers make educated and informed purchases.
